

## THE STORY OF MY LIFE

My name is Mupua Amos Mutunga. I'm fifteen yrs old, I learnt in a private school called Bringers of Joy after I joined it 2yrs ago. I am born in a family of three kids. I am second born in my family, my elder sister is eighteen yrs old, while my younger brother is twelve yrs old.

My sister is in form three while my brother is in class ~~three~~<sup>four</sup>. My brother learns in a nearby school called Believers Rescue Centre, while my sister is a day scholar in a far wide school ~~and~~ called Golden light sec school.

My parents are casual workers. My mother is a vegetable vendor while my father is a labourer but the money they get from their profession can't fulfil our daily needs. Life in school wasn't easy because I would lack school fees but somehow I managed to complete my studies with a lot of difficulties.

We live in a slum called Jangwani we're faced with challenges like flooding and displacement. Our house is rental but we can't afford the whole money the landlord wants.

My dream has always been to be an Animation movie director and after I achieve my goals I'll uproot my family from ~~Vetivinsing~~ poverty.
