

## MYSELF.

My name is Ashley Akoth from bringers of joy education centre, I am thirteen years old. From a humble family. I have been brought up with a single parent who is my mother and my three brothers and two sisters. I have started school in 2011 in baby class, 2012 in pre-unit and 2013 in class one where I owned a lot of problems when my mother started becoming sick of Asma and breathing problems being in hospital off and on, nobody to pay my school fees at times we would stay at home nap mother to sell roasted groundnuts so that we can get small amount of money to buy food.

My life has been ~~so~~ so challenging wondering my dream to become a doctor is killed by being absent from school. Sometimes I would come back to school after some days and get a lot of topics have been covered and am left behind. I have gone through worse in my primary education and I am only praying to get somebody help me to go to secondary to further studies to achieve my dream of being a doctor, to help those people who suffer from chest problems and breathing problems, to help those who aren't able to pay for their studies and lastly to help my ~~my~~ brothers and sisters who are still reading and studying in school not to lack school fees.
