## PERSONAL INFORMATION

I was born on 5<sup>th</sup> May 2006. Currently I am 13 years old. I was born from a very poor family. All my parents are alive but unfortunately they are actually not able to support me to achieve my dreams in education due to their low income. My mother is a house wife while my father is a peasant who just only toil to get our daily bread.

Sadly sometimes we could go hungry when my parents fail to bring something on the table due to their status. Truly I have suffered since I was born till date but I have a dream to become a very great doctor in future if I am supported. I really value education and all my interests are based on learning. I also value teamwork, socialization and reading story books.

I really plead for your support to achieve my ambitions in life. I promise to come back to the society whole heartedly to help other young people who are not able or not financially stable to achieve their dreams in life after my education. Thanks a lot and may God bless you abundantly.
